Patricia Blau, Ph.D., Assistant
Professor, Southwestern Allied Health Sciences
School-Dept. Of Physical Therapy
The University of Texas Southwestern Medical School

Dix-Hallpike Right

Content includes anatomy & physiology, vestibular assessment & diagnostic testing: VNG/ENG, postural stability, active head rotation tests and more. Management and treatment includes all techniques for the evaluation and treatment of BPPV and Vestibular Rehabilitation Therapy (VRT) using diagnostic based strategies for all types of vestibular and balance disorders.

Introductory program is designed for the clinician desiring a tutorial in VNG/ENG testing protocols. This workshop includes a clinical lab breakout session. Participants receive a practical approach working with the workshop's clinical staff. Includes workbook and case studies. This is an ideal program for those needing to acquire the basics in approaching the dizzy patient, & basic VNG/ENG testing skills.
