

## IS CONVERSA RIGHT FOR YOU?

If the following description sounds like you, then Conversa may be your hearing aid:

- ▶ Active lifestyle
- ▶ Frequent interaction and telephone use
- ▶ Mild to severe/profound hearing loss
- ▶ Seeking greater convenience and listening comfort

Conversa comes in a wide range of styles, sizes and colors: talk to your hearing healthcare professional to help you make the right choices for your needs.

## PRACTICAL SOLUTIONS TO EVERYDAY PROBLEMS

For 40 years, Unitron Hearing has been committed to making life better for people with hearing loss. To us, this means a commitment to not only develop high-quality hearing solutions, but to incorporate special features that really solve the everyday problems and concerns you have with hearing loss and hearing aids. To you, this means a company that's listening – and responding – to what matters in your life.

TO BETTER LISTENING

## SAY HELLO TO A BETTER LISTENING EXPERIENCE

### Conversa™ with ClearCall Resolves the Four Key Concerns of People Who Wear Hearing Aids

Listening should be a pleasure. Whether you currently wear hearing aids or have been diagnosed with a hearing loss, you may be missing out on all the pleasures of a good listening experience. From taking an active part in your work and social life to chatting on the telephone, Conversa lets you reconnect with the people and activities you enjoy.

Conversa is the first hearing aid that – along with the advanced features and capabilities you expect in a sophisticated digital hearing aid – is designed to solve the four greatest concerns of hearing aid users.

### EXPERIENCE PURE LISTENING

If you wear hearing aids now, you may have experienced whistling from your hearing aids when you talk, chew, use the phone or hug someone. Conversa dramatically reduces this uncomfortable feedback before it can be perceived.

### ENJOY THE TELEPHONE AGAIN

The telephone can create many challenges for hearing aid wearers – loud whistling, buttons to fiddle with, programs to remember. Conversa does away with all these phone frustrations. Thanks to ClearCall technology, Conversa is telephone- and cell phone-ready: no switches to fuss with or concerns about feedback.

### SOUND MORE LIKE YOURSELF

Many hearing aid wearers find that their hearing aids make their own voices sound hollow and disconcerting. Conversa solves this issue with venting that makes your voice sound more natural without the risk of feedback – a problem often encountered with other hearing aids.

### HEAR WHAT PEOPLE HAVE TO SAY

Conversa resolves the top concern of hearing aid wearers – the ability to understand conversation in noise. Conversa's ClearPath™ technology connects you to the voices and sounds in front of you, while automatically diminishing background noise and preserving the sounds you want to hear.
