

Remember

**Hearing is not only an issue for the elderly.
Hearing is a health and a quality of life issue.**

Don't wait for a hearing impairment to become a problem – contact your Hearing Care Professional now:

Bernafon's mission is to help people to hear and communicate better by providing Innovative Hearing Solutions.

Hearing instruments are designed to meet individual hearing needs. They cannot restore normal hearing or slow the onset of hearing loss. The overall benefit of hearing instruments depends on the listening environment, fit, frequency of use, hearing loss characteristics and severity, as well as the accuracy of the client evaluation and the hearing instrument response settings.

Some Things Come Easily

At last there is a hearing system with the advantages of digital technology but without all the complexity of the most expensive hearing instruments.

Flair makes high quality digital technology affordable.

Easy

Flair is designed to be easy to use. Functions are simple to understand, switches are easy to operate and maintenance is straightforward. Better hearing with Flair helps you to relax and take it easy!

Digital

At the heart of Flair is a high performance digital signal processor based on advanced technology. Flair provides superior digital sound quality for excellent speech understanding in a variety of listening environments.

For Everyone

Flair hearing systems are available in a full range of styles to meet your needs. Young and old can benefit from the proven digital technology in Flair at an affordable price.

Recent studies show that users of hearing instruments report:

- Better relationships with family***
- Improved self image***
- Greater satisfaction with life in general***
- Enhanced social life***
- Improved health***

Why miss out on the important things? Improve your hearing and your quality of life the easy way with Flair!
