

The pediatric solution for your practice

A comprehensive approach to meeting the needs of children with hearing loss, from two companies you know and trust – ICS Medical and Madsen (divisions of GN Otometrics).

With universal infant hearing screening becoming mandatory nationwide, ready access to superior screening and diagnostic equipment, continuing education, information management software and patient support is vital for audiologists, ENTs and pediatricians. PediHear brings all of the pieces of the puzzle together for you - in your office, on the Internet and in the professional community.

Advancing pediatric hearing is PediHear's mission. It's a commitment that assures you will always have access to the high-quality equipment, the most up-to-date information and the extensive support services you need to provide the best care for your youngest patients.
